

## The Event

Walk for POP is dedicated to the memory of **Tim Barber**, a Tempe police detective who lost his battle with prostate cancer at the early age of 40. Tim dedicated his last years to supporting POP's mission and the importance of early detection.

POP's annual walk raises awareness of the importance of **early detection** of prostate cancer, the second-most diagnosed cancer in men. **The first 100 men to register receive a free screening at the event.**

Our annual festive and educational walk raises awareness of the importance of early detection of prostate cancer. This event also honors the memory of POP founder Gene Felker, who passed away March 12th, 2013.

## Our Mission

We improve the quality of life for men and their families through awareness and the early detection of prostate cancer.

## The Cause

Men have a 1 in 7 chance of developing this cancer in their lifetime, and more than 4,000 Arizonians will be diagnosed this year alone. **With early detection and treatment, prostate cancer is nearly 100% survivable**, yet it will take the lives of more than 600 Arizona men within the next 12 months. For those men, a simple 15-minute exam might have made the life-saving difference. That is what POP is all about, saving lives one screening at a time!

## POP – Prostate On-Site Project

A 501(c)(3) non-profit foundation – has 2 medical mobile units that travel the state of Arizona, making annual screenings easier and more convenient by coming to workplaces, health fairs and community events.

## Our Goal

Is to reduce the number of lives disrupted and lost to prostate cancer by educating men and their families about the importance of annual screenings. Accomplishing this goal requires both human and financial resources and the dedication of volunteers to help manage all aspects of our operation. Without volunteer support, we could not present our annual Tim Barber **Walk for POP** and other fund-raising events. If you would like to volunteer, please call **480-964-3013**.
